MOBILE

Washview

Washworld's exclusive Washview system features Allen Bradley® components coupled with a software package powered by Rockwell Automation®. Operators control all aspects of their wash from the touchpad of their Washview without having a laptop or PC on site or additional hardware for programming. The days of depending on others to change every setting, diagnose problems, or simply monitor your wash are gone! Now you can change Wash Packages, check daily, weekly, monthly or yearly history, monitor inputs and outputs in real time, set Door Controls, turn on or off Cold Weather Package settings, and more! Reduce down time, increase profits!

Washview Remote

Washview Remote takes the Washview platform to the next level. Connect via telephone line from your PC or laptop and program your wash just like you were standing in your equipment room...anytime, anywhere in the world! Washview and Washview Remote are included with every Washworld High Velocity® Wash at no charge!

Washview Remote with High Speed Internet

Already using High Speed Internet for your credit card processing? Utilize Washworld's Washview Remote with the High Speed Internet option and eliminate the need for phone lines! Our world revolves around your world!

Washview Mobile

The ultimate in leading edge technology allows operators to receive communications from their wash via e-mail or text messaging. Control your wash from your Windows® based PDA or cell phone. Perform operations in real time from anywhere in the world...even issue a free wash to a customer without being tied to your wash on busy days!
Enjoy the freedom of Washview Mobile; manage your wash from your cell phone!

Note: Specifications Subject to Change Without Notice.
